

Lina Cossignani, PhD.

**Department of Pharmaceutical Sciences,
University of Perugia**

Italy

Lina Cossignani received her B.Sc. degree in 1989 in Pharmaceutical Chemistry and Technology at Perugia University. Following, she received her Ph.D. degree in 1992 in Quality of Animal Products at Perugia University. During her PhD research, starting from June 1990, she spent 3 months at Hormel Institute, in Austin, Minnesota, as visiting researcher. In 1994 she has been assigned as a Researcher to the Faculty of Pharmacy of University of Perugia and in 2001 as an Associate Professor to the Department of Pharmaceutical Sciences. She is the Coordinator of the Master's degree in Food Science and Human Nutrition. Her teaching activity is carried out in food chemistry and food analysis courses. Her research activity concerns the development and application of analytical techniques for assessing the authenticity of foods and their nutritional and health properties. She is the author of over a hundred articles, most of which have been published in ISI indexed journals, and over one hundred contributions to national and international conferences.
