

Jan Petr, PhD

Department of Analytical Chemistry, Palacký University Olomouc

Czech Republic

Jan Petr received his PhD in Analytical Chemistry from Palacký University Olomouc, Czech Republic in 2008. After his postdoc at CNRS Paris, he became the head of his group at Palacký University Olomouc. Now, he is an Associate Professor interested in capillary electrophoresis, connection of capillary electrophoresis with both “organic” and “inorganic” mass spectrometry, and low-cost microfluidics. His team focuses on the development of new methods for analysis of biologically active compounds, chiral separations, and for on-line preconcentration of analytes. He is an author and co-author of more than 55 papers in impacted journals with more than 870 citations. His H-index is 18. From 2020, he serves as the president of the Olomouc division of the Czech Chemical Society.
